Educated in Germany

Who we are

Our many years of international experience in educational initiatives and programmes have already won several international awards. The Sino-German education programme was created and tested with national and international experts and successfully certified in 2024. This applies to both group and individual courses for a wide range of language and vocational training programmes. Our campus locations in Germany, as well as at our co-operation campuses in China, are available to private and corporate customers, schools and universities as well as government institutions.

What we offer
